The future of e-bikes comes to Victoria

What happens when Spanish style meets Canadian streets

VICTORIA, AUGUST 08, 2018 -- Grab a helmet and take to the streets in style - Spanish style that is. Ocean River Sports has brought Rayvolt premium e-bikes to the island.

Ocean River Sports has become one of the few retailers in North America to bring in [Rayvolt Electric bikes](#). These technically advanced electric bikes are modeled after the 1900's and bring a piece of history into the modern era with clean energy transportation.

The slogan of the company is Yesterday's Charm, Tomorrow's Technology, Today's Solution. With a environmentally conscious city such as Victoria, these fashion forward environmentally sustainable bikes easily take to the streets.

Some features of the Cruiser model electric bike:

- Designed and built in Barcelona, Spain
- Brushless 3 phase dc motor is comprised of 48 different copper coils - aka one powerful motor
- Killer battery power: 13 cells in a series to reach a nominal voltage of 48V
- Electronic braking system on the disk brakes

Rayvolts are not just available for retail purchase at Ocean River, These bikes are available for rent as well. It is \$45 for an hour and \$75 for two hours to take to the streets on a Rayvolt cruiser.

About Ocean River Sports

Ocean River Sports is a 36 year old Victoria based business. Although Ocean River Sports & Adventures specializes in kayaking and paddle boards they are always looking for new ways to get out there. With a passionate and innovative team of individuals, this local business is pushing the envelope and testing the waters with a new electric bike to take you from the streets to the seas.
